*Astrology • Jyotisha • Numerology • Tarot • I Ching • Runes • Geomancy • Palmistry
• Vastu • Feng Shui • Crystals • Scrying • Aura • Kabbalah • Hermeticism • Alchemy
• World Divination Traditions*

SCOPE: A comprehensive core corpus for VELORA. It is intentionally source-versioned and tradition-specific. It is not literally every occult manuscript ever written; no single document can contain every regional school, oral lineage, unpublished source, or copyrighted modern work. This volume is designed to be a broad, production-oriented knowledge foundation with links to public-domain and authoritative source material.

REALITY BOUNDARY: Traditional occult meanings are presented as historical/symbolic systems, not scientifically guaranteed predictions. Astronomy and other factual claims must be kept separate from interpretation. Aura content is symbolic/historical; ordinary phone cameras do not scientifically measure an invisible aura.

1. Knowledge architecture and evidence labels

CORE RULE: Every production answer should know what kind of statement it contains. VELORA should never treat a symbolic interpretation as the same kind of evidence as a calculated astronomical position.

Evidence type	Meaning	VELORA treatment
VERIFIED_FACT	Current or stable factual information from an authoritative source	May be stated factually with source/freshness metadata.
DETERMINISTIC_CALCULATION	Value produced by a versioned formula or astronomical calculation	Immutable after calculation; AI may explain but not change it.
PERSISTED_RANDOM_RESULT	Tarot/rune/I Ching/etc. result generated once and stored	Never redraw on replay, translation, refresh or follow-up.
CONFIRMED_OBSERVATION	Visible or customer-confirmed physical information	State only what the camera/sensor/customer actually confirmed.
TRADITIONAL_INTERPRETATION	Meaning inside a named historical/esoteric system	Always method-labelled; not scientific certainty.
OWNER_APPROVED_SYMBOLIC_RULE	VELORA-defined practical correspondence approved by owner	Versioned and traceable; never invented by model memory.
PRACTICAL_GUIDANCE	Low-risk real-world action derived from evidence	Reality/safety overrides symbolism.

Global source-of-truth order

1. Verified customer input
2. Deterministic calculation
3. Persisted random/cast result
4. Confirmed physical observation
5. Exact method-specific knowledge
6. Current authoritative factual data when required
7. AI wording only - last

2. Astronomy and Western astrology

SEPARATION: Astronomy is factual computation/observation. Astrology is a traditional interpretive framework. Store and speak these layers separately.

2.5 Traditional horary / electional method notes

Horary asks a specific question for a specific moment and location; the configured historical method should define significators, houses, aspects, receptions, dignities and timing rules.

Electional astrology selects a time for an action. VELORA must treat real deadlines, safety, legal requirements, business opening hours and travel schedules as hard constraints before symbolic timing.

Natal interpretation uses birth time/location; unknown or uncertain birth time must disable methods that depend on precise houses/angles rather than inventing them.

Planetary positions, sunrise/sunset and angles must come from a real calculation engine. AI must not infer them from memory.

[William Lilly - Christian Astrology](#) - Traditional horary/natal source.

3. Vedic astrology / Jyotisha

METHOD ISOLATION: Jyotisha contains multiple schools. Parashara, Jaimini, KP, Nadi, Tajika and other systems must remain separate method namespaces. Shared astronomical inputs do not imply shared interpretation rules.

3.3 Panchanga

Vara: Weekday. Often used with planetary rulership and day-quality rules.

Tithi: Lunar day based on angular separation of Sun and Moon; must be calculated.

Nakshatra: Lunar mansion occupied by the Moon under the chosen sidereal framework; must be calculated.

Yoga: A calculated angular relationship of Sun and Moon; formula and interpretation must be method-versioned.

Karana: Half-tithi division; calculated, not generated by AI.

Sunrise/Sunset: Location/date-specific astronomical values; required for many traditional day-period rules.

3.4 Divisional charts (Vargas)

Chart	Typical traditional use
D1 Rashi	Primary natal chart; overall life pattern
D2 Hora	Resource/wealth lens in the configured tradition
D3 Drekkana	Siblings, courage, effort; varies by school
D4 Chaturthamsha	Property, home, fortune of residence
D7 Saptamsha	Children/progeny themes
D9 Navamsha	Marriage/dharma and planetary refinement; major interpretive chart
D10 Dashamsha	Career, profession, public work
D12 Dvodashamsha	Parents/lineage themes
D16 Shodashamsha	Vehicles, comforts; school-specific interpretation
D20 Vimshamsha	Spiritual practice / devotion
D24 Chaturvimshamsha	Learning/education
D27 Saptavimshamsha	Strengths/weaknesses, resilience
D30 Trimshamsha	Adversity / difficult outcomes; school-specific
D40 Khavedamsha	Maternal lineage / auspiciousness in some schools
D45 Akshavedamsha	Paternal lineage / character in some schools
D60 Shashtiamsha	Fine karmic classification; highly birth-time sensitive

3.5 Dasha / timing families

Vimshottari Dasha: a widely used Nakshatra-based period system. VELORA must calculate exact period start/end dates from the configured algorithm and ayanamsha/birth data.

Yogini, Ashtottari, Kalachakra and other dashas: keep separate registries with their own eligibility, period sequence and interpretation rules. Never let generic AI substitute one dasha for another.

Transits: current planetary positions should be compared against a validated natal framework. Any orb/aspect/sign rule must be explicit.

Ashtakavarga: store raw bindu tables and the specific interpretive thresholds used by the selected method. Bindu counts are not probability percentages.

Shadbala: store component strengths and method thresholds. Strength is a traditional technical measure, not a chance-of-success score.

Jaimini: keep karaka, rashi-drishhti, pada and dasha logic isolated from Parashara.

KP: keep star lord, sub-lord, cusp and significator logic isolated. Modern KP books are often copyrighted; use authorized engine rules rather than copying books.

Nadi: there is no single universal Nadi rulebook. Activate only explicit sourced rule sets.

Tajika/Varshaphal: annual-chart methods and Tajika aspects/yogas must not be silently replaced by ordinary natal rules.

[Brihat Samhita - Internet Archive](#) - Varahamihira; broad mundane/astronomical/architectural corpus.

4. Numerology systems

NO UNIVERSAL NUMBER MEANING: There is no single worldwide numerology. Vedic, Chaldean, modern Western/Pythagorean-style, Lo Shu, Hebrew Gematria and modern Kabbalah-style numerology must remain separate.

4.1 Vedic number-planet registry

Number	Planet	Core theme	Practical cue	Caution
1	Sun	Independent, visible, initiating	Lead one important task; own the decision	Ego battles; forcing recognition
2	Moon	Receptive, relational, responsive	Coordinate, listen, support, pace gently	Over-sensitivity or indecision
3	Jupiter	Expansive, expressive, advisory	Teach, plan, learn, broaden options	Excess or scattered optimism
4	Rahu	Unconventional, disruptive, system-challenging	Experiment carefully; verify assumptions	Instability or contrarianism for its own sake
5	Mercury	Communication, movement, trade, adaptability	Send, speak, compare, negotiate, stay flexible	Restlessness, inconsistency
6	Venus	Harmony, beauty, care, relationship	Improve quality, agreement, presentation	Over-indulgence, approval-seeking
7	Ketu	Analysis, inwardness, separation, specialization	Simplify, research, step back before committing	Withdrawal or over-isolation
8	Saturn	Work, accountability, structure, endurance	Prioritize duty, budget, sequence, persistence	Pessimism, delay fixation
9	Mars	Action, courage, completion, intensity	Finish, confront, protect, act decisively	Conflict, impatience

4.2 Chaldean English-letter mapping used by the authorized VELORA source

Value	Letters
1	A I J Q Y
2	B K R
3	C G L S
4	D M T
5	E H N X
6	U V W
7	O Z
8	F P

4.3 Modern Pythagorean-style English-letter mapping

Value	Letters
1	A J S
2	B K T
3	C L U
4	D M V
5	E N W
6	F O X
7	G P Y
8	H Q Z
9	I R

HISTORICAL ACCURACY: Do not label the modern Pythagorean-style mapping as ancient Pythagorean doctrine without a source-specific historical justification. It is a modern numerological convention.

4.4 Lo Shu grid

4 9 2
3 5 7
8 1 6

Input typically uses date-of-birth digits according to the configured source method. VELORA must preserve exactly whether zeroes are ignored and whether Birth/Destiny numbers are inserted into the grid.

Frequency: count each digit 1-9. Derive present, missing, repeated and dominant values only from the configured rule set.

Arrows and planes differ among modern schools. The TAROMAYA source contained a known inconsistency in one "spiritual plane" definition; preserve provenance and resolve by explicit method version, not silent blending.

Heuristic scores such as balanceScore/overallScore/strength are internal symbolic heuristics only; never display as prediction accuracy.

4.5 Hebrew Gematria - standard letter values

Letter	Value
Aleph א	1
Bet ב	2
Gimel ג	3
Dalet ד	4
Hei ה	5
Vav ו	6
Zayin ז	7

Letter	Value
Chet ח	8
Tet ט	9
Yud י	10
Kaf כ	20
Lamed ל	30
Mem מ	40
Nun נ	50
Samech ס	60
Ayin ע	70
Peh פ	80
Tsadi צ	90
Kuf ק	100
Resh ר	200
Shin ש	300
Tav ת	400

METHOD BOUNDARY: Hebrew Gematria is a Hebrew-letter numerical method. It should not be presented as identical to English "Kabbalah numerology." Multiple calculation methods exist inside Jewish textual traditions.

4.6 Personal cycles

Personal Year, Personal Month and Personal Day must each be a deterministic function with an explicit reduction convention. Different numerology schools may calculate or interpret these cycles differently.

Name, mobile number, address, vehicle number, date comparison and branding modules should store the exact alphabet mapping and reduction rules used. Spelling changes require customer confirmation before recalculation.

Kua formulas vary by convention, birth-year boundary and gender/sex assumptions in different Feng Shui schools. VELORA must store the exact convention rather than silently switching.

[Sepher Yetzirah - Wikisource](#) - Historical letter/number cosmological source; not modern life-path numerology.

Tarot production rules

Digital draw: freeze eligible pool → secure random event → persist exact card(s) → retrieve exact card knowledge → interpret → speak.

Physical/custom deck: image recognition must produce candidate identity + confidence; low confidence requires customer confirmation. Never invent card artwork.

Position matters: ACTION, OBSTACLE, RESOURCE, OPTION_A, OPTION_B, PAST, PRESENT, NEXT_MOVE and other spread positions should have explicit contextual modifiers.

Reversed cards are a configuration choice. If reversal is disabled, never generate a reversed meaning.

Unknown card combinations should be interpreted from each verified card + position rather than invented pair dictionaries.

Specialist TAROMAYA decks such as Health, Soulmates, Lost-and-Found should not be automatically enabled. Health content must never become medical diagnosis.

[A. E. Waite - The Pictorial Key to the Tarot](#) - Primary historical RWS reference with 78 cards and divinatory methods.

[Sacred Texts Tarot library](#) - Historical Tarot schools for separate comparison, not blending.

6. I Ching / Yijing - 64 hexagrams

CAST INTEGRITY: A cast must be generated from a real coin/yarrow/digital random process, persisted line by line from bottom to top, and only then interpreted. Moving lines and transformed hexagram must never be regenerated on replay.

#	Hexagram	Concise theme	Practical cue
1	Qian / The Creative	Initiating force, disciplined creative action	Act with strength, but keep conduct correct and timely.
2	Kun / The Receptive	Support, responsiveness, carrying what is given	Enable the right process rather than forcing direction.
3	Zhun / Difficulty at the Beginning	Early-stage disorder and uncertainty	Organize basics; do not demand mature results from a new start.
4	Meng / Youthful Folly	Inexperience, learning, need for guidance	Ask the right question; accept instruction.
5	Xu / Waiting	Prepared patience	Wait actively: gather resources and protect timing.
6	Song / Conflict	Dispute, incompatible positions	Clarify the point of conflict; avoid escalation without leverage.
7	Shi / The Army	Organization, discipline, collective action	Use structure, clear leadership, and defined roles.
8	Bi / Holding Together	Alliance, belonging, mutual support	Choose reliable partners and commit clearly.
9	Xiao Chu / Small Taming	Small restraints, gradual influence	Use gentle accumulation rather than force.
10	Lu / Treading	Careful conduct in a risky hierarchy	Proceed respectfully and watch boundaries.
11	Tai / Peace	Flow between levels, constructive exchange	Use favorable conditions to build durable order.
12	Pi / Standstill	Blocked exchange, stagnation	Stop forcing cooperation; protect integrity and wait for change.

7. Runes and Ogham

7.1 Elder Futhark - modern divinatory layer with historical caution

HISTORICAL LIMIT: The surviving rune poems are historical sources for rune names/poetic associations, but a complete ancient Elder Futhark divination manual does not survive. Modern divinatory meanings are reconstructions and should be labelled as such.

Othala	Inherited estate	Home, inheritance, legacy, boundary	Protect what should be preserved and define what is truly yours.

7.2 Ogham - primary twenty letters

Lenormand is not Tarot. Card meanings are more concrete and combinatorial in many modern schools. Keep a separate knowledge namespace.

Playing-card cartomancy should define suit/rank meanings from a specific historical or owner-approved method. Do not borrow Tarot court-card meanings automatically.

8.2 Western geomancy - 16 figures

Figure	Literal / traditional label	Concise traditional theme
Via	Way / road	Movement, change, transition

A geomantic shield chart uses Mothers, Daughters, Nieces, Witnesses and Judge according to a defined binary figure-generation method.

Each generated figure must be persisted before interpretation. House placement and perfection methods should come from the selected historical rule set.

9. Pendulum, dowsing, tea/coffee and scrying

9.1 Pendulum / dowsing

A phone must not pretend to create a physical pendulum movement. Use real customer-observed movement, optional camera tracking where reliable, and explicit calibration.

Core states: YES, NO, UNCLEAR. UNCLEAR is a valid outcome and should not be forced into certainty.

For option boards, randomize option order only if the method requires blind comparison; persist board order for session integrity.

Historical dowsing texts describe claims of water/mineral detection, but VELORA should not present dowsing as scientifically established detection.

[The Divining Rod - Charles Latimer](#) - Historical source, not scientific validation.

[Tea-Cup Reading and Fortune-Telling by Tea Leaves](#) - Historical public-domain symbol/manual source.

9.3 Crystal and mirror scrying

Scrying knowledge should distinguish setup, observation and interpretation. The customer should report or confirm the visible/imagined symbol rather than AI inventing a "vision."

A symbol dictionary may suggest historical meanings, but the final output should remain explicitly symbolic and non-factual.

No scrying result should be used for medical, legal or safety-critical claims.

[How to Read the Crystal - Sepharial](#) - Historical public-domain crystal-gazing manual.

10. Palmistry

SAFETY: Palmistry should use only visible hand features and traditional symbolic interpretation. Do not infer lifespan, disease, pregnancy, mental illness, ethnicity, or other sensitive traits from images.

Feature	Traditional use	VELORA boundary
Hand shape	Overall palm/finger proportions; traditional element classifications vary	Use only visible geometry; label tradition.
Thumb	Angle, length, flexibility in traditional palmistry	Use as a symbolic decision/drive cue only.
Head line	Traditional association with thinking style	Do not diagnose cognitive or psychiatric conditions.
Heart line	Traditional association with emotional/relational style	Do not infer sexuality or mental health.
Life line	Traditional vitality/consistency symbolism	Never interpret as lifespan or death timing.
Fate line	Traditional work/direction pattern	Do not present as guaranteed career destiny.
Sun/Apollo line	Traditional recognition/creative expression symbolism	Treat as symbolic, not fame prediction.
Mercury area/line	Traditional communication/business symbolism	No medical claims.
Mounts	Raised regions named for planets in Western palmistry	Use only visible prominence + configured historical rules.

11. Feng Shui and Vastu

11.1 Feng Shui - Eight Trigrams / Later-Heaven directional framework

Trigram	Direction	Element	Traditional image/family	Practical VELORA translation
Qian ☰	NW	Metal	Heaven / father / authority	Support leadership and clear responsibility
Kun ☷	SW	Earth	Earth / mother / receptivity	Support nourishment, partnership, stability
Zhen ☳	E	Wood	Thunder / eldest son / initiative	Support beginnings and active movement
Xun ☴	SE	Wood	Wind / eldest daughter / gradual penetration	Support steady growth and influence
Kan ☵	N	Water	Water / middle son / depth	Support flow, career symbolism, caution around risk
Li ☲	S	Fire	Fire / middle daughter / visibility	Support illumination, reputation, activity
Gen ☶	NE	Earth	Mountain / youngest son / stillness	Support focus, study, stopping
Dui ☱	W	Metal	Lake / youngest daughter / joy	Support expression, exchange, creativity

11.2 Five phases / elements

Phase	Symbolic qualities	Generating cycle	Controlling relation
Wood	Growth, expansion, spring	feeds Fire	controlled by Metal
Fire	Visibility, heat, transformation, summer	feeds Earth	controlled by Water
Earth	Stability, support, transition	feeds Metal	controlled by Wood
Metal	Structure, precision, contraction, autumn	feeds Water	controlled by Fire
Water	Flow, storage, winter	feeds Wood	controlled by Earth

Command position, Bagua, Kua and Flying Stars belong to distinct layers/schools. Do not merge them casually.

Camera analysis may observe door, desk, bed, mirrors, plants, light, materials and room geometry. It cannot detect "qi" as a scientific sensor reading.

Building code, fire safety, ergonomics, ventilation, natural light and actual room use always override symbolic placement.

[Feng Shui - Ernest J. Eitel](#) - Historical 1873 source; useful for history, not a complete authority on every Chinese school.

11.3 Vastu - production-safe directional reference

Direction/zone	Common traditional/modern association	VELORA boundary
North	Commonly linked with movement, commerce, Kubera in later/common Vastu presentations	Keep actual access, light, climate and function primary.
North-East / Ishanya	Often treated as a sensitive/open zone in	Avoid universal claims; school-specific

Direction/zone	Common traditional/modern association	VELORA boundary
	many Vastu schools	rules differ.
East	Sunrise, visibility, entry/light themes in many traditions	Real daylight and heat gain must override symbolism.
South-East / Agneya	Common fire/kitchen association	Fire safety, ventilation and code requirements are primary.
South	Often treated as heavier/controlled in common modern Vastu	Do not invent fear-based prohibitions.
South-West / Nairitya	Often associated with stability/weight in modern practice	Structural practicality and privacy come first.
West	Completion/storage/setting-sun symbolism in some schools	Use actual circulation and heat conditions.
North-West / Vayavya	Movement/air/guest themes in common practice	Ventilation and real use determine final placement.
Centre / Brahmasthana	Central spatial field in Vastu concepts	Keep circulation and structural reality primary.

Vastu must identify the exact school/source used. Traditional architectural texts include proportions, orientation, site, temple/building forms and cosmological planning; modern social-media remedies are not automatically classical.

For rentals and existing rooms, VELORA should prefer low-cost reversible actions and real ergonomics over fear-based redesign.

[Ram Raz - Essay on the Architecture of the Hindus](#) - 1834 historical architectural treatise reference.

12. Crystals, gems and talismanic folklore

FOLKLORE LABEL: Historical gemstone texts contain medical and supernatural claims. VELORA should retain them only as folklore/history and must not convert them into treatment or guaranteed-effect claims.

Moonstone	Lunar imagery, travel, change, intuition in modern lore	Separate modern crystal lore from historical sources.
Opal	Vision, change, luck/unluck folklore varies by period	Store contradictory traditions rather than one universal claim.

Yesod	Foundation	Transmission, linking, generative foundation
Malkhut	Kingdom	Manifestation, receiving, embodied world

TRADITION BOUNDARY: Jewish Kabbalah, Hebrew Gematria, Hermetic Qabalah and modern occult correspondences are related historically but not identical. Preserve separate namespaces and sources.

13.2 Agrippa / Renaissance correspondence architecture

Agrippa organizes occult philosophy through elemental, celestial and intellectual/religious worlds. VELORA should use it as a historical correspondence source, not as scientific causation.

Common correspondence categories include elements, planets, metals, stones, plants, animals, numbers, letters and celestial hierarchies. Each mapping should store the book/chapter/source version.

Ceremonial/grimoire material may contain coercive, harmful, toxic or hazardous procedures. VELORA may index historical symbolism but should not operationalize dangerous instructions.

[Agrippa - Three Books of Occult Philosophy](#) - 1651 English translation; Renaissance occult correspondence source.

13.3 Alchemical stages - symbolic reference

Stage	Process	Symbolic interpretation
Calcination	Reduction by heat; symbolically breaking rigid form or pride

Distillation	Refinement through repeated purification	

Stage	Process	Symbolic interpretation
Coagulation	Fixing the transformed result into stable form	

CHEMICAL SAFETY: Historical alchemical texts include laboratory procedures involving dangerous substances. The VELORA knowledge layer should remain historical/symbolic unless a procedure is independently safe and appropriate.

Alchemy Rediscovered and Restored - Historical alchemical source; do not operationalize hazardous recipes.

14. Aura and subtle-body knowledge

NON-NEGOTIABLE SCIENCE BOUNDARY: Aura systems in this volume are historical/theosophical or owner-approved symbolic frameworks. They are not scientific measurements of an invisible field. Kirlian photography does not establish a diagnostic aura camera.

14.1 Historical colour-symbol associations

Colour	Historical occult/Theosophical association - normalized summary
Red	Historical occult/Theosophical systems commonly associate bright red with vitality/passion and muddy red with anger or agitation.
Orange	Often associated with ambition, vitality, enthusiasm, or self-assertion in early occult colour systems.
Yellow	Often linked with intellect, thought, analysis, or mental activity.
Green	Often linked with adaptability, sympathy, growth, or social responsiveness; shades were interpreted differently by authors.
Blue	Often linked with devotion, calm, aspiration, or spiritual feeling.
Indigo	Later/esoteric systems often connect it with inwardness, depth, or intuition.
Violet	Often linked with aspiration, idealism, or spiritualized imagination.
Rose / Pink	Frequently linked with affection, tenderness, care, or personal warmth.
White	Often used symbolically for clarity, purity, integration, or intense luminosity.
Grey	Often treated historically as dullness, fear, inhibition, or depletion depending on shade.
Brown	Often treated as material fixation or muddiness in older occult colour dictionaries; not a scientific diagnosis.
Black / very dark tones	Historical systems sometimes associate darkness with contraction, concealment, or hostility; VELORA must never treat this as moral truth or a camera-detected condition.

Engine	Production-safe symbolic knowledge

AU27 Personal-Number Element Cue	Use verified numerology output plus owner-approved symbolic colour/element mapping.

Engine	Production-safe symbolic knowledge

Vishuddha	Throat	Common modern theme: expression/communication
Ajna	Brow	Common modern theme: perception/insight
Sahasrara	Crown / above crown	Common modern theme: transcendence/spiritual integration

HISTORICAL ACCURACY: The familiar seven-chakra rainbow-colour system is largely a modern synthesis and should not be presented as identical to all classical Tantric sources. Keep classical, Theosophical and owner-approved modern systems separate.

15. Chinese astrology and additional world traditions

15.1 Chinese zodiac - 12 animal branches, concise popular layer

Animal	Concise popular symbolic theme
Rat	Resourceful, adaptive, strategic
Ox	Steady, durable, methodical
Tiger	Bold, competitive, independent
Rabbit	Diplomatic, sensitive, measured
Dragon	Dynamic, ambitious, visible

Horse	Active, mobile, independent
Goat	Creative, relational, gentle
Monkey	Inventive, clever, opportunistic
Rooster	Precise, outspoken, orderly
Dog	Loyal, protective, principled
Pig	Generous, sociable, comfort-seeking

Chinese astrology is much larger than the 12-animal zodiac. A production BaZi/Four Pillars engine requires Heavenly Stems, Earthly Branches, yin/yang, five phases, Day Master logic, ten gods, combinations/clashes and luck cycles from a specific school.

Zi Wei Dou Shu, Qi Men Dun Jia and Da Liu Ren are distinct complex systems. Do not approximate them with animal-zodiac prose.

15.2 Additional world divination traditions - activation registry

Tradition	VELORA activation guidance
Ifa divination (Yoruba)	Highly developed corpus of Odu and oral/literary interpretation. Requires lineage-respectful, licensed/tradition-specific sourcing; do not synthesize from generic AI.
Diloggun / cowrie divination	Afro-diasporic and Yoruba-linked traditions with system-specific rules. Requires practitioner-authorized source pack.
Tibetan Mo	Dice/letter divination associated with Tibetan Buddhist contexts; use authorized translation and lineage context.
Shagai / anklebone divination	Central Asian/Mongolian casting traditions; meanings vary by game/divinatory lineage.
Shell / bone casting	Many African, Asian and indigenous systems; never create a universal meaning set.
Bibliomancy	Random passage selection from a designated text; interpretation must be text-specific and respectful of sacred texts.
Cleromancy / lots	Divination by lots, dice, marked objects. Historical forms occur in many cultures; rule set must identify tradition.
Omen literature	Birds, weather, dreams, bodily signs and event omens appear in many ancient corpora; keep culture and era explicit.

Tradition	VELORA activation guidance
Astrology of fixed stars	Traditional Western/Arabic/Persian sources exist; do not add star meanings without a specific historical source version.
Arabic/Persian astrology	Rich medieval tradition including lots, interrogations and planetary doctrine; requires dedicated primary-source corpus rather than Western-modern substitution.
Mesoamerican calendrical divination	Calendar systems such as tonalpohualli/Tzolk'in-related divinatory traditions require culturally specific scholarship and should not be mixed with Western numerology.
Chinese Four Pillars (BaZi)	Heavenly Stems, Earthly Branches, five phases, yin/yang, Day Master, luck cycles; requires a dedicated rules engine, not generic zodiac prose.
Zi Wei Dou Shu	Chinese stellar destiny system with complex palace/star rules; requires its own verified source pack.
Qi Men Dun Jia / Da Liu Ren	Chinese metaphysical timing/strategy systems. Very complex; activate only with a validated tradition-specific engine.

GLOBAL COVERAGE RULE: Breadth is not the same as verified coverage. A method should remain DISABLED_NOT_READY until a culturally and technically credible source pack exists.

16. VELORA production rules

Rule	Implementation requirement
No method without knowledge	Every LIVE engine must have a verified, versioned knowledge pack.
No knowledge without source	Every canonical rule has a method, source, version and rights/status label.
No answer without evidence	Occult/personalized answers require verified input + engine result + matching knowledge.
AI wording last	AI may simplify/translate but may not invent calculations, cards, planet positions, aura measurements or unsupported rules.
Play is playback only	PLAY → FinalVeloraAnswer.voice_text → TTS. Never PLAY → AI → TTS.
Randomize once	Tarot/rune/I Ching/casting result persists through replay, refresh, translation and follow-up.
Reality first	Safety, law, deadlines, transport, engineering, medical care and actual physical requirements override symbolic advice.
No fake percentages	Technical confidence may describe data quality; do not convert symbolic systems into fake accuracy percentages.
Method isolation	Vedic, Western, KP, Jaimini, Kabbalah, Lo Shu, Feng Shui, Vastu, Tarot, Lenormand etc. keep separate namespaces.
Copyright hygiene	Ingest full text only where rights/permission allow; otherwise store authorized notes, concise facts, or source references.

Closing: what this PDF is for

This document is a broad core knowledge pack, not a claim to contain every occult teaching ever created. It is designed to make VELORA more accurate to the knowledge that is actually fed into it.

The next production step is ingestion: transform each section into structured method-specific records, connect those records to verified calculation/cast engines, run regression tests, and let the Play button speak only the locked FinalVeloraAnswer.

Where a tradition is not adequately sourced, VELORA should say the method is unavailable rather than substitute generic AI memory.

18. Panchanga, lunar days and practical timing - expanded pack

CALCULATION FIRST: This section expands the stored timing knowledge. All actual Tithi, Nakshatra, sunrise, sunset, Yoga, Karana and planetary-hour values must be calculated from date/location by the configured engine. The tables below are interpretation metadata, not substitutes for calculation.

18.1 Five-fold Tithi classification used in traditional Muhurta

Class	Tithi numbers in each Paksha	Normalized traditional idea	VELORA practical use	Caution
Nanda	1, 6, 11	Joy, renewal, pleasant beginnings	Low-risk starts, morale, social or creative activity	Do not treat as a guarantee of success
Bhadra	2, 7, 12	Steadiness, welfare, practical benefit	Organization, support, constructive work	Task suitability varies by lineage/source
Jaya	3, 8, 13	Victory, overcoming, assertion	Competition, difficult tasks, decisive action	Avoid escalating unnecessary conflict
Rikta	4, 9, 14	Emptying, clearing, reduction	Removing, decluttering, closing, cutting back	Often not preferred for launches or accumulation
Purna	5, 10, 15	Fullness, completion, fulfillment	Completion, consolidation, ceremonies where appropriate	Purnima/Amavasya require separate contextual rules

18.3 Planetary weekdays

Day	Ruler	Traditional emphasis	Practical translation
Sunday	Sun	Visibility, authority, identity, leadership	Public-facing work, ownership, setting direction
Monday	Moon	Care, receptivity, home, public response	Planning around people, support, recovery, household matters
Tuesday	Mars	Action, competition, cutting, courage	Difficult execution, technical work, decisive boundary-setting
Wednesday	Mercury	Messages, analysis, commerce, learning	Calls, writing, negotiation, documents, comparison
Thursday	Jupiter	Expansion, counsel, teaching, law	Learning, strategy, mentoring, broadening options
Friday	Venus	Agreement, aesthetics, relationships, value	Presentation, relationship work, design, diplomacy
Saturday	Saturn	Duty, limits, structure, endurance	Maintenance, long-term work, discipline, simplification

18.4 Planetary-hour calculation metadata

Component	Rule	Implementation note
Chaldean order	Saturn → Jupiter → Mars → Sun → Venus → Mercury → Moon → repeat	Planetary hours cycle in this order; the first hour after local sunrise is ruled by the weekday ruler.

Component	Rule	Implementation note
Day segment	Sunrise to sunset	Divide the daylight interval into 12 equal temporal hours.
Night segment	Sunset to next sunrise	Divide the night interval into 12 equal temporal hours.
Location dependence	Mandatory	Sunrise/sunset and therefore the hour boundaries change by location/date.

18.5 Choghadiya labels - interpretation only

Label	Traditional classification	VELORA wording
Amrit	Commonly treated as highly supportive	Preferable for many ordinary starts if real-world constraints allow
Shubh	Supportive / auspicious	Good general-purpose period in the selected tradition
Labh	Gain / benefit	Often used for commercial or result-oriented actions
Chal	Movement / change	Can suit travel, movement, flexible work; less stable for permanence
Udveg	Agitation	Use caution; avoid unnecessary pressure
Kaal	Restrictive / difficult	Usually avoid for elective starts when alternatives exist
Rog	Discomfort / obstacle	Usually treated as less supportive

NO STATIC TIMES: The sequence of Choghadiya periods depends on weekday and local day/night divisions. Never hard-code a label to a clock time.

[NASA/JPL Horizons](#) - Astronomical verification of Solar System positions; sunrise/sunset should come from the application astronomy stack or another authoritative calculator.

[Sacred Texts - Hinduism index](#) - Historical source-discovery layer for Vedic texts; not a substitute for a specific Jyotisha methodology.

19. Astrology - advanced interpretation metadata

METHOD VERSIONING: These are traditional interpretive categories. Exact dignities, aspect rules, house systems, ayanamsha, combustion limits, orbs and exception rules must be versioned per methodology.

19.1 Essential dignity vocabulary

Condition	Definition	VELORA treatment
Domicile / rulership	Planet in a sign it traditionally rules	Traditionally treated as able to act in its own style/resources
Exaltation	Planet in a traditionally exalted sign	Traditional elevated or highly expressed condition
Detriment	Planet opposite a domicile	Traditional difficulty expressing its normal agenda
Fall	Planet opposite exaltation	Traditional reduced ease/status; not a factual weakness score
Triplicity / term / face	Additional traditional dignity systems	Only calculate if the selected classical method defines them

19.2 Planetary condition vocabulary

State	Astronomical/technical meaning	Traditional interpretation rule
Direct	Apparent normal forward zodiacal motion	Use calculated motion state; no generic good/bad label
Retrograde	Apparent backward zodiacal motion from Earth	Traditional review/reversal/internalization themes vary by planet and school
Stationary	Near a change of direction	Often interpreted as concentrated/emphasized; requires exact speed threshold
Combust	Planet close to the Sun under a traditional angular rule	Threshold differs by tradition; never guess
Cazimi	Planet extremely close to Sun under selected traditional rule	Historically treated differently from ordinary combustion

19.3 House-system integrity

System	Core idea	Production rule
Whole Sign	Each zodiac sign forms one whole house	Common in Hellenistic and some modern traditional practice
Equal House	30-degree houses from an Ascendant reference	Simple geometric house system
Placidus	Time-based quadrant house system	Widely used modern Western system; high-latitude edge cases matter
Other quadrant systems	Regiomontanus, Campanus, Porphyry, etc.	Do not mix house cusps between systems in one calculation

19.4 Jyotisha method namespaces

Method	Core scope	Integrity rule
Parashara	Graha, rashi, bhava, yogas, dashas, Vargas	Keep its rules distinct from KP/Jaimini
Jaimini	Sign-based aspects, karakas, padas and specialized dashas	Separate namespace; do not fill gaps from Parashara
KP	Cusps, star lords, sub-lords, significators	Exact sub-lord and cusp algorithms required
Nadi	Multiple regional/textual traditions	Activate only a specifically sourced rule pack
Tajika / Varshaphal	Annual chart and Tajika aspects/yogas	Do not apply ordinary natal aspect rules automatically
Ashtakavarga	Bindu-based strength/support framework	Raw values are technical inputs, not probability percentages
Shadbala	Composite traditional planetary strength calculation	Never surface as "chance of success"

[Ptolemy - Tetrabiblos scan/index](#) - Historical classical astrology reference.

[Agrippa - Three Books of Occult Philosophy](#) - Renaissance planetary/elemental correspondence source.

20. Tarot - operational interpretation matrices

CONTEXT LAYER: The 78-card records already present in this knowledge base are the card-level source. This section tells VELORA how to apply a card meaning to the customer question without inventing a new card meaning.

20.1 Position modifiers

Position	Rule
ACTION	Translate the card into the next low-risk action consistent with its stored themes.
CAUTION	Prefer the card's warning/shadow factors; avoid turning it into a prediction.
OBSTACLE	Identify the pattern that blocks progress; do not diagnose a person.
RESOURCE	Use strengths/supportive imagery and practical capability.
OPTION_A	Interpret only as evidence about option A within the chosen spread.
OPTION_B	Interpret only as evidence about option B; compare without forcing certainty.
PAST	Use as background/context, not a factual historical claim unless independently known.
PRESENT	Describe the symbolic current pattern in the reading.
NEXT_MOVE	Convert the card into one immediate action or one thing to verify.
WHAT_TO_VERIFY	Extract the assumption/data point that should be checked in reality.
WHAT_TO_AVOID	Extract the card's caution as a concrete avoid/limit action.

20.2 Question-context modifiers

Context	Production rule
Decision	Return A/B/WAIT/MIXED only if the configured spread produces that structure; then explain the card evidence.
Communication	Map symbols/themes to message tone, clarity, timing, boundaries, listening, or revision.
Career / project	Map to priorities, execution, collaboration, visibility, risk, sequencing, or review.
Relationship conversation	Keep to communication/relationship dynamics; do not claim another person's hidden thoughts as fact.
Creative work	Use imagery, experimentation, completion, originality, revision and audience-fit themes.
Timing	Tarot timing is method-dependent and symbolic; do not invent exact clock times unless a separate timing engine calculates them.
Next 24 hours	Use only as a symbolic focus/action; no guaranteed prediction.

Context	Production rule
Assumption check	Translate the card into “what to verify” rather than “what will happen.”

20.3 Combination protocol

Situation	Rule
Same suit cluster	May emphasize that suit’s configured domain; do not invent an exact pair meaning.
Multiple Major Arcana	May mark the reading as symbolically weightier; still not stronger factual certainty.
Court-card cluster	May emphasize roles/stances/interaction patterns, not literal people unless the spread defines them.
Conflicting cards	Return MIXED and describe each factor; never force artificial consensus.
Unknown pair rule	Interpret each card independently, then synthesize only the overlapping supported themes.

[A. E. Waite - The Pictorial Key to the Tarot](#) - Public-domain historical RWS primary reference.

[Sacred Texts Tarot library](#) - Historical Tarot source library; keep Waite, Papus, Mathers and other schools separate.

21. Numerology - calculation and interpretation expansion

DETERMINISTIC RULES: These formulas are method definitions, not scientific personality measures. The exact production function must match the selected VELORA method version and its regression tests.

21.1 Core deterministic formulas

Value	Method definition	Integrity rule
Birth / Driver number	Reduce the day of birth to the method's configured 1-9 result.	Do not change the birth date or apply another school's master-number convention silently.
Destiny / Conductor number	Sum the digits of the full date of birth and reduce by the configured method.	Same input + same method version must always return the same value.
Personal Year	Combine birth day + birth month + current calendar year, then reduce according to method.	Year boundary follows customer-local calendar date unless method specifies otherwise.
Personal Month	Combine Personal Year + current calendar month, then reduce.	Use the same reduction convention as the parent method.
Personal Day	Combine Personal Month + current calendar day, then reduce.	Current date must come from the customer timezone.
Name number - Chaldean	Normalize allowed letters, map by the stored Chaldean table, sum and reduce per configured rule.	Never silently respell the customer's name.

21.2 Chaldean English-letter mapping used by the authorized VELORA source

Value	Letters
1	A I J Q Y
2	B K R
3	C G L S
4	D M T
5	E H N X
6	U V W
7	O Z
8	F P

21.3 Lo Shu arrow registry from the authorized source engine

Cells	Complete pattern	All-missing pattern
4-9-2	Complete: intellect / mental organization	Missing: memory/mental-organization challenge in the configured source
3-5-7	Complete: determination	Missing: indecision in the configured source
8-1-6	Complete: practicality	Missing: frustration in the configured source
4-3-8	Complete: planning	Missing: disorder in the configured source
9-5-1	Complete: will	Missing: low willpower in the configured

Cells	Complete pattern	All-missing pattern
		source
2-7-6	Complete: activity	Missing: inactivity in the configured source
4-5-6	Complete: emotional balance	Missing: emotional sensitivity in the configured source
2-5-8	Complete: spirituality	Missing: scepticism in one configured source variant

KNOWN SOURCE CONFLICT: The TAROMAYA/VELORA source implementations contain a known conflict in the "spiritual plane" definition: one uses 2-5-8 while another source file uses 4-3-8. Keep provenance and regression tests; do not silently merge the two.

21.4 Standard Hebrew Gematria values

Letter	Value
Aleph	1
Bet	2
Gimel	3
Dalet	4
Hei	5
Vav	6
Zayin	7
Chet	8
Tet	9
Yud	10
Kaf	20
Lamed	30
Mem	40
Nun	50
Samech	60
Ayin	70
Peh	80
Tsadi	90
Kuf	100
Resh	200
Shin	300
Tav	400

[Chabad - What Is Gematria?](#) - Standard Hebrew letter-number table and multiple-method discussion.

Sepher Yetzirah - 1893 Westcott translation - Historical Jewish esoteric/letter-number cosmology source; keep separate from modern English numerology.

22. Cartomancy, tea/coffee symbols, dreams and omens - source expansion

HISTORICAL DIVINATION: These historical sources contain fortune-telling claims. VELORA should store them as tradition-specific symbolic dictionaries, not factual prediction systems.

22.1 Playing-card cartomancy architecture

System element	Historical structure	VELORA rule
52-card modern method	All four suits and full rank set	Keep card meanings tied to the selected historical method/source.
32-card oracle	Ace, King, Queen, Jack, 10, 9, 8, 7 of each suit	Mohammed Ali's source describes a preferred 32-card oracle; keep separate from 52-card meanings.
Consultant / significator card	Some methods designate a card for the querent	Only use when the selected source method specifies it.
Spreads / methods	Multiple layouts and dealing procedures	A layout is part of method provenance; do not mix card meanings and layouts from unrelated systems silently.

Telling Fortunes by Cards - Mohammed Ali - Public-domain-in-U.S. historical card-divination manual with 32- and 52-card methods.

22.2 Tasseography production rules

Component	Rule
Cup preparation	Use the configured historical method only; keep customer instructions short and safe.
Position in cup	Historical systems may use rim/middle/base or handle orientation as timing/context zones.
Symbol recognition	Camera can suggest visible shapes, but customer confirmation should be available for ambiguous forms.
Dictionary lookup	Retrieve the exact symbol record from the selected source; do not ask AI to invent a new omen.
Unknown symbol	Return UNKNOWN / ask customer what shape they see; do not force a meaning.

Tea-Cup Reading and Fortune-Telling by Tea Leaves - Historical method plus alphabetical symbol dictionary and specimen readings.

22.3 Dream / oneiromancy production rules

Area	VELORA treatment
Historical dream dictionaries	Treat as folklore/oneiromancy, not scientific prediction.
Customer context	Ask what the image meant/feeling/context when useful; avoid claiming a universal psychological diagnosis.
No dream diary by default	Interpret only when the user asks; do not create a journaling workflow.
Medical/psychiatric boundary	Dream content cannot diagnose illness or mental-health conditions.
Source separation	Miller, Astra Cielo, psychoanalytic sources and cultural omen traditions must remain distinct.

Ten Thousand Dreams Interpreted - Gustavus Hindman Miller - Large historical dream dictionary; store as historical oneiromancy, not scientific fact.

Fortunes and Dreams - Astra Cielo - Historical multi-divination compendium: astrology, oracles, cards, dreams, signs and omens.

23. Aura, thought-forms and subtle-body - expanded source separation

AURA SOURCE SEPARATION: The most important accuracy rule in Aura is not to merge historical occult colour systems into a fake camera measurement. A phone may observe visible colours; the symbolic interpretation belongs to the selected historical or owner-approved framework.

23.1 Aura knowledge namespaces

Namespace	What it contains	Evidence label
Atkinson - Human Aura	Historical occult aura colours and "prana/aura" concepts	TRADITIONAL_OCCULT_CLAIM
Besant & Leadbeater - Thought-Forms	Theosophical colour/shape associations presented as clairvoyant observations	THEOSOPHICAL_SYMBOLIC_CLAIM
VELORA owner rules	Owner-approved purpose/colour/material/direction action rules	OWNER_APPROVED_SYMBOLIC_RULE
Visible camera layer	Lighting, clothing, visible colour, background, geometry, materials	CONFIRMED_OBSERVATION
Scientific boundary	No phone-camera aura Hz/percentage/disease/curse claims	REALITY_AND_SAFETY_RULE

23.2 Chakra method separation

Layer	Description	VELORA rule
Classical Tantric chakra systems	Multiple textual systems with varying centre counts, petals, deities, mantras and correspondences	Do not flatten all classical systems into one modern rainbow diagram.
Theosophical subtle-body systems	Modern occult reinterpretations developed in Theosophical literature	Store separately from classical Tantra.
Modern seven-colour chakra model	Popular modern synthesis used in wellness/esoteric practice	Allowed only as an explicitly modern/owner-approved symbolic framework.

24. Hermetic, grimoire, alchemical and occult-library expansion

HISTORICAL-ONLY SAFETY: VELORA may index historical doctrine, symbols, correspondences, cosmologies and source metadata from grimoires. It should not operationalize dangerous, coercive, toxic, illegal or harmful procedures.

24.1 Major historical occult corpora

Corpus	Knowledge families	VELORA treatment
Agrippa - Three Books of Occult Philosophy	Elements, planets, numbers, letters, metals, stones, plants, celestial/intellectual correspondences	Historical correspondence source.
Sepher Yetzirah	Letters, numbers/Sephirotic concepts, cosmological formation	Jewish esoteric source; keep distinct from Hermetic Qabalah.
The Lesser Key of Solomon	Historical grimoire taxonomy, seals/spirit catalogues, planetary-hour material	Index historically; do not turn coercive spirit-conjuration operations into customer actions.
Alchemy Rediscovered and Restored	Historical/theoretical alchemy and symbolic transformation	Do not operationalize hazardous chemical recipes.
Blavatsky - Studies in Occultism	Theosophical occult-philosophy essays	Historical Theosophy namespace.

26. Knowledge-ingestion schema for VELORA

LIVE	Only verified+enabled records enter customer answers.
PLAY	Speak only the locked FinalVeloraAnswer; never re-run AI on Play.

Expanded edition closing note

This expanded PDF is a curated world-scale occult knowledge foundation, not a literal copy of every occult book ever written. It combines structured knowledge already present in the VELORA corpus with additional timing, astrology, Tarot, numerology, cartomancy, dream, aura and historical-source architecture.

Where a public-domain full text exists, this document provides a direct source link so VELORA can ingest a rights-cleared edition after jurisdiction/host-term review. Where a tradition is modern, proprietary, internally inconsistent or culturally specific, VELORA must keep it disabled until the Owner supplies or approves an exact source pack.

For customer output, the permanent chain remains: verified customer input → real calculation/cast → exact method knowledge → evidence validation → locked FinalVeloraAnswer → Play/TTS.
